

**COMPREHENSIVE & DURABLE  
SEALING SOLUTIONS**

**MEWS**  
Sealing Technologies

## Company Overview

MEWS Sealing Technologies Equipment Trading LLC, experienced since 1982, landed its footprints in Dubai in 2021 as a durable sealing solution provider for mechanical equipment. The company has the potential to source the best technologies and customized options based on the product's preference due to the web of connections that thrived during the extensive experience of 40+ years.

Intensely moving forward, MEWS is a competent brand that follows ethos to incorporate maximization of client's equipment life. MEWS was established to cater the competitive needs of most of the power-packed industries. Providing carefully tested, diverse solutions and quality-driven seals for multiple applications, our vigilance allows us that every product we manufacture serves an exponential purpose for its customers.

“  
ACTING  
PARTNERS  
FOR  
RELIABLE  
SOLUTIONS!”

# About the Founder

## Devising Complex with the Logical

The man behind MEWS – Jürgen Mews with his elaborate experience since 1982. The concept ideated from his work of 40+ years in the sealing business/industry. Owing to his skills for engineering, production, Quality Management, Service, Claim Management, exceptional 3D design and After Sales Service; he introduced his services in UAE. Using his elaborative expertise, he inculcated the same thriving concepts in MEWS.

years of Leading Service Center in Germany

**3+**

years of handling the Middle East Industry

### COMPELLING SKILLS INCLUDING:

Engineering, Design, Production, Service, Quality Management, Claim Management, After Sales Service & Consultancy.

## Mission

Delivering high-quality, durable sealing solutions.

## Vision

Economically productive sealing solution provider across the globe.

## Core Values

At MEWS, we have laid the foundations of our services at the following four values:

“  
**ORIGINATING  
EMINENT  
STANDARDS**”

Quality  
Excellence

Safety  
Standards

Innovative  
Technologies

Sustainable  
Solutions

# Industries we cater

MEWS holds an array of connections where we are rendering our services at:

Chemical and Petrochemical

Oil and Gas

Pharmaceutical and Biomedical

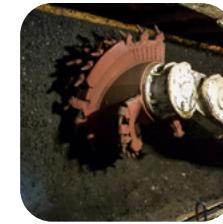

Power Plants and Water Treatment Plants

Pulp and Paper

Food Processing

Mining

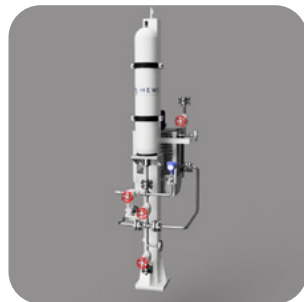

Refining Technology

# Product range

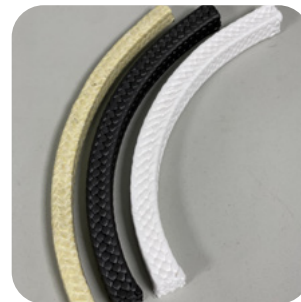

Mechanical Seals

Supply System – Accessories

Static Seals

Gland Packings

## Standard Equipment with mechanical Seals

- Pumps
- Agitators
- Mixers
- Turbines
- Compressors
- Bead Mills

# Services

## Repair of Mechanical Seals and Systems

A standard repair includes disassembly, cleaning, re-machine parts replacement of secondary seals, bearings, springs, setscrews and alike by new parts.

## Active Optimizing Seal Repair

In Addition to the standard repair, we evaluate seals in depth and analyze with careful inspection. With the gained information, corrective measures can be taken.

## Customized Service Contracts

MEWS accepts all custom requests and finalizes them as needed. This ensures a smooth operation between shutdowns, reduction of "bad actors", which results in overall cost reduction and a convenient, customizable platform.

## Monitoring and Preventive Maintenance

Upon agreement, MEWS will regularly gather Seal relevant data like leakage rate, pressures, temperatures, vibrations at the site. The criticality of the report is then sent to the customer for review.

## Seal Express

In need of urgent spare parts MEWS provides quick response and short delivery times by using a well organized network, fast engineering and design, reverse engineering if needed.

## Plant shut down

To avoid unwanted shocks with last-minute missing or faulty spare parts, MEWS offers consulting and pre-inspection of the Seal related stock at the customers' facilities to ensure smooth maintenance during the plant shutdown.

## Why MEWS?

Collaborative Experience

Customized Approach

Consultancy and After Sales Services

High Quality & Durable Products

Global Network & Sourcing

More than 'just repair'

Extended MTBR/MTBF

## Quality Assurance

### Delivering Efficiency

Every aspect of our services is thoroughly checked and assured for smooth operations. MEWS offers thorough quality checks to provide exceptional services. Our After-Sales Service plan is closely associated with Quality Assurance, where we tend to elaborate on qualitative solutions that follow safe and standard procedures.

## Our Environmental Approach

### Sustainable Sealing Solutions

MEWS believes in moving forward using a sustainable approach that allows us to play a vital part in protecting our environment. As a sealing solution provider, we cater to customers' requirements for the safest and environmentally friendly methods that can create the best possible sealing systems. We understand that our work of line is closely associated with keeping the air fresh and the water clean thus, our initiatives towards preserving our resources are consistently well put.
